

CERTIFICATION

1. What is ZED Certification?

ZED (Zero Defect Zero Effect) is a flagship Government of India certification program for MSMEs, administered by **MSME-QCI**, aimed at improving **product quality, process efficiency, safety, hygiene, and environmental sustainability** in manufacturing units.

ZED Gold Certification is an advanced level that reflects **high operational maturity, robust SOPs, strong quality control, and statutory compliance**.

2. ZED Gold is not just a certificate - it is a business enabler.

Key Benefits:

- **Concession on interest cost and upfront fee by banks & financial institutions**
- Improved product quality & reduced rejections
- Better workplace safety, hygiene & compliance
- Higher credibility with customers, PSUs & MNCs
- Preferred status in Government tenders
- Easier access to bank finance & lower risk perception

Many MSMEs see ZED Gold as a **stepping stone to ISO, large corporate vendor approvals, and export readiness**.

3. How does FIN\$IVE help MSMEs in ZED Gold Certification?

FIN\$IVE acts as a **hands-on implementation partner**, not just a consultant.

Our approach includes:

- Initial **gap assessment** of your manufacturing unit
- **Pre-audit preparedness** and audit simulation
- Designing & implementing **practical SOPs**
- Guidance **on quality, safety & hygiene systems**
- Handholding during **external audit**
- Closure of observations till certification
